

Prediction on matched experience

Development smoke only

◆ Fitted predictor, frozen ▲ Fitted predictor, online ▲ Known-law reference

Switch · recorded experience

Episodes/bin: 8, 8, 4, 2, 1, 0, 0, 0

Later bins select survivors. Online-frozen pairs test updating within a source.

Cross-source and known-law pairs compare absolute losses; positive reductions favor the left predictor.

Paired reductions

Whole-episode 95% intervals
